\$9,017,900,000

The FY 2024 Budget Request for the Research and Related Activities account is \$9,017.90 million. Funding within the R&RA Appropriation invests in early-stage research as well as development of a future-focused science and engineering workforce that can accelerate progress in basic science and engineering research as well as support the private sector.

NSF is the only federal agency dedicated to funding basic research across all areas of non-biomedical science and engineering. In FY 2024, NSF will continue its longstanding commitment to investing in discovery and learning that will promote the innovations that help fuel the Nation’s future prosperity.
