SECURE is the bridge

US Government

Governance Structure of SECURE

Mission:

Empower the research community to make security-informed decisions about research security concerns

Approach:

Providing information, developing tools, and providing services

Audience:

IHEs, non-profit research institutions, and small and medium-sized businesses

Duties of the RSI-ISAO under CHIPS

- 1** **Serve as a clearinghouse for information** to help enable the members and other entities in the research community to understand the context of their research and identify improper or illegal efforts by foreign entities to obtain research results, know how, materials, and intellectual property;
- 2** **Develop a standard set of frameworks and best practices**, relevant to the research community, to assess research security risks in different contexts;
- 3** **Share information concerning security threats** and lessons learned from protection and response efforts through forums and other forms of communication;
- 4** **Provide timely reports** on research security risks to provide situational awareness tailored to the research and STEM education community;
- 5** **Provide training and support**, including through webinars, for relevant faculty and staff employed by institutions of higher education on topics relevant to research security risks and response;
- 6** **Enable standardized information gathering** and data compilation, storage, and analysis for compiled incident reports;
- 7** **Support analysis of patterns of risk and identification** of bad actors and enhance the ability of members to prevent and respond to research security risks;
