

NSF PROGRAMS TO BROADEN PARTICIPATION

NSF has taken a variety of approaches to broaden participation across its many programs. While broadening participation is included in the NSF review criteria, some program announcements and solicitations go beyond the standard criteria. They range from encouraging language to specific requirements. Investments range from capacity building, research centers, partnerships, and alliances to the use of co-funding or supplements to existing awards in the core research programs.

NSF’s broadening participation portfolio can be divided into three categories: (1) Focused, (2) Emphases, and (3) Geographic Diversity. The following sections define each of these categories and provide a list of the programs and activities with their respective funding levels that comprise each.

(Dollars in Millions)

	FY 2023 Base Plan¹	FY 2024 (TBD)	FY 2025 Request	Change over FY 2023 Base Plan	
				Amount	Percent
Subtotal, Research and Related Activities²	\$576.70	-	\$605.49	\$28.79	5.0%
Subtotal, STEM Education³	\$804.83	-	\$832.06	\$27.24	3.4%
Total, Broadening Participation Programs^{2,3}	\$1,381.53	-	\$1,437.55	\$56.02	4.1%

¹ FY 2023 is restated to show the consolidation of NSF mission support activities within R&RA comparably with FY 2025.

² FY 2023 funding includes one-time funding through the Strategic Initiatives line for targeted investments for EPSCoR co-funding (\$10.0 million) and GRANTED support of emerging research institutions (ERIs) (\$10.0 million).

³Totals exclude H-1B Visa funded programs (S-STEM and ITEST).

Summary Tables

Focused Programs

Focused Programs have broadening participation as an explicit goal of the program and are included at 100 percent of their funding.

¹ FY 2023 is restated to show the consolidation of NSF mission support activities within R&RA comparably with FY 2025.

² Totals exclude H-1B Visa funded programs (S-STEM and ITEST).

³ EASE comprises both Presidential Awards for Excellence in Science, Math, and Engineering Mentoring and Presidential Awards for Excellence in Mathematics and Science Teaching.

⁴ FY 2023 funding includes one-time funding through the Strategic Initiatives line for targeted investments for EPSCoR co-funding (\$10.0 million) and GRANTED support of emerging research institutions (ERIs) (\$10.0 million).

Emphasis Programs

Emphasis Programs have broadening participation as one of several emphases, but broadening participation is not an explicit goal of the program. These programs are included at a percentage of their funding level. The percentage used equals the 3-year average percentage of the programs’ award portfolio that meets one the following criteria where an award:

- Was to a Minority Serving Institution (MSI);
- Had at least 50 percent of its principal investigators from an underrepresented group; or
- Had at least 50 percent of the students or postdocs supported by the grant reporting themselves as members of an underrepresented group on project reports.
